Advanced Nutrition for Growth

CORN ▪ COTTON ▪ PEANUTS ▪ TOBACCO ▪ WHEAT

Advance Growth Agent is a plant-growth enhancer that contains a blend of highly refined nutrients and natural carboxylic acids that enhance solubilization and uptake of plant nutrients. It can be used on a wide variety of crops as a soil application to aid early-season plant development.

- Maximizes yield potential and quality by enhancing early-season vigor and root development.
- Contains a highly refined 6-24-6 fertilizer, as well as a micronutrient package, giving transplants a boost of important nutrients for a strong start.
- Contains a blend of three natural carboxylic acids secreted by soil bacteria, fungi, and plant roots that improve solubility, availability, and uptake.

START **STRONG!**

Help your crop reach its highest potential.

More extensive root system and increased plant vigor.

- Help plants utilize soil nutrients more efficiently.
- Lead to improved moisture absorption, which helps reduce stress in dry conditions.
- Facilitate earlier fruit set and maturity.
