C4

SOIL SUGAR SOLUTION

Active Ingredients:

Solution of Simple Sugars and Organic Carbon…….. 100%

Derived from Fructose, glucose, sucrose, maltose, dextrose, and other simple sugars, humic and fulvic acids, and humins.

Multiple simple sugars plus humectants and growth enhancement compounds.

NOT FOR HUMAN CONSUMPTION

CAUTION

KEEP OUT OF REACH OF CHILDREN

Do not ingest.
Read the entire label for additional precautionary statements.

Weight per gallon: 8.93 lbs.

SHAKE WELL BEFORE USE

Manufactured By:
Coastal AgroBusiness, Inc.
Greenville, North Carolina

GENERAL INFORMATION

C4 Soil Sugar Solution is designed for direct field application or as an additive to liquid fertilizers used as starter solutions. **C4 Soil Sugar Solution** contains simple sugars and natural humic and fulvic acids that stimulate microbial growth in the soil. The use of **C4 Soil Sugar Solution** results in an increase of the natural microbial population, enhanced nutrient cycling, enzyme production, improved soil structure, and nutrient availability. Simple sugars provide an easy source of nutrients for beneficial microbes residing in the rhizosphere, leading to an additional boost of carbon in the soil. The natural humic and fulvic acids improve nutrition and yields in a wide variety of crops while aiding in the formation of soil particles and helping build organic matter in soil. When applied in nitrogen-rich soils, the microbial growth resulting from **C4 Soil Sugar Solution** may be enhanced.

Note: Be careful when mixing **C4 Soil Sugar Solution** with other products. Check product compatibilities in small amounts before large-scale mixing.

PRECAUTIONARY STATEMENTS / HAZARDS TO HUMANS

CAUTION. NOT FOR HUMAN CONSUMPTION. Harmful if swallowed. Can cause skin, mucous membrane, and eye irritation. Avoid contact with eyes, skin, or clothing. Use caution when opening. Avoid breathing vapors or spray mists. Use only with adequate ventilation. Wash thoroughly after handling. Remove and wash contaminated clothing before reuse. Do not apply this product in a manner as to directly or through drift expose workers or other persons. Always read and follow product labeling.

FIRST AID

If swallowed: Call a physician immediately. Only induce vomiting at the instruction of a physician. Never give anything by mouth to an unconscious person.

If in eyes: Flush eyes with copious amounts of clean water for at least 15 minutes. Remove contacts if present, and easy to do. Do not let the victim rub their eye. Get medical attention.

If on skin: Remove contaminated clothing and wash skin with soap and water. If irritation develops, get medical attention.

If inhaled: Remove the person from the area of exposure. Give artificial respiration if necessary. If breathing is difficult, give oxygen if a qualified operator is available. Seek medical attention.

NOTE: If contact is made with a spray solution containing pesticides, follow the "First Aid" statements on the pesticide label.

STORAGE AND DISPOSAL

Do not store near heat or open flame. Store in original container only. Keep container tightly closed when not in use. Keep from freezing. If damaged or leaking, soak up with absorbent material and place in a suitable container for disposal. Transfer remaining product to a suitable container for storage and label.

Do not contaminate water, food, or feed by storage or disposal. Do not contaminate water by runoff from equipment wash waters or spray materials. Wastes resulting from this product may be disposed of on-site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent) and add rinsate to spray tank, then offer for recycling, or puncture and dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

AGRICULTURAL USE REQUIREMENTS AND USER SAFETY RECOMMENDATIONS

When used in conjunction with pesticides, consult the pesticide manufacturer's label for worker protection recommendations. Use of waterproof gloves and protective eyewear is recommended when handling this product.

DIRECTIONS FOR USE

General use rate: 1 - 2 quarts of **C4 Soil Sugar Solution** per acre.

C4 Soil Sugar Solution may be applied at planting with starter fertilizer solutions, as a neat solution, in-furrow, banded 2x2, or broadcast directly onto the soil and incorporated.

Always mix well to ensure proper distribution during application

KEEP FROM FREEZING
