POWER your crop with QUANTUM POWER K

The **Quantum Power K** line of nutritionals are clean solutions utilizing potassium acetate and a patented steady-delivery urea polymer-based technology that delivers nutrients to crops over a 60 to 90 day period. **Quantum Power K** promotes consistent growth and strong, healthy plants by using potassium acetate, a plant's preferred source of potassium. They are compatible with a wide variety of materials and can be applied in variable ways, including soil banding, surface dribble or spray, fertigation/drip irrigation and, of course, foliar sprays.
