MaxxGro

MaxxGro products are specifically formulated for use on corn, cotton, peanuts, soybeans or wheat crops requiring a balanced fertility program. They contain trace element packages designed to supply the micronutrients needed by these crops in a precise ratio, based on crop uptake and efficiency factors. **MaxxGro** products contain penetration and translocation aids, as well as humectants and growth enhancement compounds to enable nutrients to move into the plant system more easily.

	MaxxGro for BEANS Density: 10.42 LBS./GALLON		MaxxGro for CORN Density: 10.18 LBS./GALLON		MaxxGro for COTTON Density: 10.58 LBS./GALLON		MaxxGro for PEANUTS Density: 10.25 LBS./GALLON		MaxxGro for WHEAT Density: 9.92 LBS./GALLON
