Part of a Balanced Nutritional Program

The **Quantum SDS** line of nutritionals are clean solutions utilizing a patented steady-delivery urea polymer-based technology that delivers nutrients to crops over a 60 to 90 day period. Quantum SDS promotes consistent growth and strong, healthy plants. They are compatible with a wide variety of materials and can be applied in a variety of ways including soil banding, surface dribble or spray, fertigation/drip irrigation and, of course, foliar sprays.

15-0-12-18S

Quantum 15-0-12-8S is a chloride-free, clear liquid solution, containing 15% nitrogen (6% urea nitrogen, 9% slow-release nitrogen), 12% potash and 8% sulfur. Density is 11.12 lbs./gallon. Each gallon contains:

- 1.67 lbs. of nitrogen (0.67 lbs. urea nitrogen, 1.00 lbs. slow-release nitrogen)
- 1.33 lbs. of potash
- 0.89 lbs. of sulfur

5-0-20-13S

Quantum 5-0-20-13S is a chloride-free, clear liquid solution, containing 5% nitrogen (2% urea nitrogen, 3% slow-release nitrogen), 20% potash and 13% sulfur. Density is 11.7 lbs./gallon. Each gallon contains:

- 0.58 lbs. of nitrogen (0.23 lbs. urea nitrogen, 0.35 lbs. slow-release nitrogen)
- 2.34 lbs. of potash
- 1.52 lbs. of sulfur

18-0-8-5S

Quantum 18-0-8-5S is a chloride-free, clear liquid solution, containing 18% nitrogen (7.2% urea nitrogen, 10.8% slow-release nitrogen), 8.0% potash and 5.4% sulfur. Density is 11.12 lbs./gallon. Each gallon contains:

- 2.90 lbs. of nitrogen (.80 lbs. urea nitrogen, 1.20 lbs. slow-release nitrogen)
- 0.89 lbs. of potash
- 0.60 lbs. of sulfur

30L

Quantum 30L is a chloride-free, clear liquid solution, containing 30% nitrogen (12% urea nitrogen, 18% slow-release nitrogen). Density is 10.5 lbs./gallon. Each gallon contains:

- 3.15 lbs. of nitrogen (1.26 lbs. urea nitrogen, 1.89 lbs. slow-release nitrogen)

Boost **Potassium** and **Sulfur** while controlling **Nitrate**

- Foliar nutrients are more efficient than soil applied nutrients (from 3 to 6 times more efficient).
- Compatible with nitrogen solutions (32%, 30%, 24S, etc.).
- Compatible with manganese, copper, boron, and other micronutrient applications.
- May be blended with other fertilizers or applied as a foliar treatment on selected crops.
- When used as a foliar fertilizer, should be diluted with water before applying.
- Low burn potential.
- May be applied by drip, sprinkler or flood irrigation.
